RE: Postmaster General 10 year plan

Dear Mr. Kubayanda,

I am writing in regard to the Postmaster General's 10 year plan for the USPS. This plan will break and destroy the USPS mail system completely. Postal rates would increase and the services will be downgraded even further than some of the cuts Mr. DeJoy made in 2020 including the dismantling of sorting machines, cutting of hours for Postal workers and prioritizing and delaying some postal deliveries. This is unacceptable in the United States. It seems that Mr. DeJoy is in a position to enhance his wealth by destroying the USPS and enhancing his multimillion dollar investment in XPO Logistics.

The people of the United States depend on this service for their communications, medicine and other important deliveries. Please do not approve his plan. Better yet get rid Postmaster General Louis DeJoy. The Postal Service would be much healthier and in a better position than going back to "pony express".

Please send me written confirmation for this letter.

Thank you for your consideration.
